*Oriental decoration*

ON

OFF

When the lighting fixtures is off, the surface of the silkscreened glass diffuser looks like an even white surface, and you can see only the outlines of the decoration.  
When on, the surface is alive with different color shades, due to the number of silkscreen layers. Along the outline of the decoration, the light is clearer because there is less color; instead towards the center, where there is more color, the intensity of light decreases.
