Number of packages	1	
IP	20	
Class	II	
Energy class	-	

It is a system composed by the reading, floor, suspension, wall versions and compositions. Inspired by the large Cono, the system is characterized by one among the oldest figures and covers multiple functions. All versions are equipped with LED. The floor and reading versions are equipped with adjustable LED boards with 4 emission and light levels and have the regulator incorporated in the stem. The suspension and wall versions are dimmable and require the installation of wall dimmers for their adjustment. On request for the suspension version is possible to create different compositions with several elements.
